### PROFILE

Motivated and curious first-year computer engineering student with a strong interest in cybersecurity, networking, and software development. Passionate about learning and eager to gain hands-on experience, I am looking for an international internship to broaden my horizons and contribute to innovative teams.

### PROFESSIONAL EXPERIENCE

#### CISO Trainee | 2024–Present

Visiativ – Lyon, France

- Driving vulnerability scans for web applications and Active Directory
- Collaborating with developers teams to increase security in products by training developers to OWASP top 10
- Designing and executing phishing campaigns simulations to raise awareness
- Monitoring the developement of Visiativ products alongside developers
- Watching the external attack surface with EASM

#### Network and Security Administrator | 2023–2024

Vizyon – Grenoble, France

- Managed Networks for medical offices
- Increased protection of data with VPN and firewalls
- Developed Pyhton tools to manage firewalls remotely
- Reinforced Monitoring and logging activity by adding a SIEM and a Nagios Server

### EDUCATION

#### CESI Lyon | 2024–2027

Computer Science engineering degree

#### University Institute of Technology of Grenoble | 2021–2024

Network and Telecommunications Bachelor

- Graduated with Honors

#### Private High School of Saint-Vincent | 2018–2021

Professional Baccalaureate in Computer Networks and Communication Systems

- Graduated with High Honors
